

35th IFTDO World Conference & Exhibition 2006

KaiZenHR Sdn Bhd will be participating as an exhibitor for the 35th IFTDO World Conference & Exhibition which will be held on 22 – 25 August 2006. The theme for the event is “**Education & Training Harmonized**”. Should you be interested in taking a closer look at our award winning HR solution, you may do so by visiting our booth at the 35th IFTDO World Conference & Exhibition 2006.

EDUCATION & TRAINING HARMONIZED

The theme reflects a dynamism and integration of two of the most influential forces in the world of HRD. The progress of education and business over the years has divided and directed the role and influence of education and training to different paths, each willful in its own domain and indisputable in its dominance.

Today, the world has changed. The social, political and economic features of the 21st century necessitate a reinvention of traditional thoughts and perspectives. Today, the globalized market place requires that the roles be married and synergized.

Education and training today must once again be redefined. The world today demands that practical experience in training be integrated with theories and ideas in education to create practical yet innovative new learning to benefit those who embrace learning as a lifelong journey.

EDUCATION AND TRAINING HARMONIZED is the world of learning. The educators and professionals who make learning their trade will flourish and the knowledge economy will be born and nurtured to produce leaders and thinkers of the 21st Century.

In line with the Malaysian emphasis on a knowledge based economy, the 35th IFTDO World Conference & Exhibition 2006 will meet, reintroduce and redefine education and training together and with each other, to set in motion a catalyst for the development of new ideas and practices in the international human resource industries that will benefit and elevate both the global and local economies in an environment where education and training are truly harmonized and truly harnessed.
