## **KZEN Solutions Berhad & SAP Malaysia Tie-Up To Enhance Human Resource Management**

**KZEN SOLUTIONS BHD (KZEN) and SAP Malaysia Sdn Bhd (SAP Malaysia) announced their successful collaboration on the launch of a new human resource (HR) software solution – KZEN HR One.**

KZEN has teamed with SAP Malaysia in 2006 to develop a powerful add-on module to the SAP, Business One. KZEN HR One is a unique HR software solution tailored for small and medium enterprises (SMEs) according to KZEN Solutions executive director Chow Wei Hoon.

The newly launched software had enhanced and improved features from the SAP Business One HR module to time and cost efficient. KZEN HR is an add-on module that has inherited the application tools and key components of SAP Business One's human resource module. Therefore users require minimal effort to familiarize with the user's interface. The software also had comprehensive and extensive HR feature such as those for personnel, leave and training administration, payroll and performance management.
